
Level 5

Beware!
Here be Asteroid!

- You are given the position of exactly 1 stationary asteroid
- Steer your spaceship to the station
- **Your spaceship must not collide with the asteroid**
- Collisions are explained on the next slide
- *The given time limit is very generous; you don’t need a fast solution*

Collisions

- The asteroid has a size of 1
- Your spaceship has a size of 1 as well.
  However, it has a square shaped safety area with a radius of 2 around it
- If the asteroid penetrates this safety area, it counts as a collision

Input

Name		Description	Example
N		Number of cases	3 6,0 118 3,0 10,4 112 7,4 -7,-7 124 -4,-4
repeated N times	Space station and time limit	The X-position and the Y-position of the space station separated by a comma Followed by the time limit separated by a space	
	Asteroid	**The X-position and the Y-position of the asteroid separated by a comma**	

Output

Name		Description	Example
repeated N times	X-Sequence		0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 5 4 3 3 4 5 0 0 5 4 5 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 -5 -4 -5 0 0 5 4 3 2 1 1 2 3 4 5 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 5 4 4 5 0 0 -5 -4 -3 -2 -3 -4 -5 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 0 -5 -4 -3 -2 -3 -4 -5 0
	Y-Sequence		
	Optional empty line		

format identical to previous level
